Pressure Sets ABP F120

Aquaboost Pressure Sets are designed to meet system demands in larger domestic and light commercial applications.

The ABP pump is mounted onto a WRAS Approved 24 litre diaphragm tank providing a buffer of pressurised stored water. Ideally suited to boost stored cold water supplies from a storage tank to un-vented hot water cylinders or combination boilers.

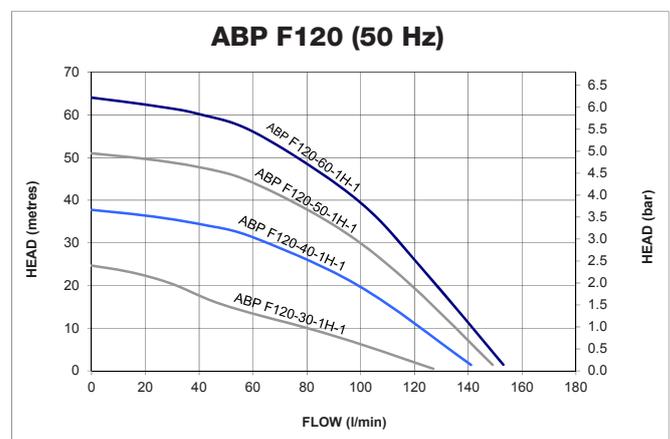

Features

- Robust brass/stainless steel construction
- 2.6, 3.6, 4.9 and 6.2 bar performance options
- Supplied complete with a WRAS approved 24 litre diaphragm tank to reduce pump starts and improve efficiency
- Supplied ready to install, including 2 x G 1 flexible hoses, inlet strainer & pre-wired
- Fully automatic control
- Dry run protection
- Unique control system stops pump pulsing in operation
- Quiet & reliable operation
- 2 year guarantee (subject to conditions)

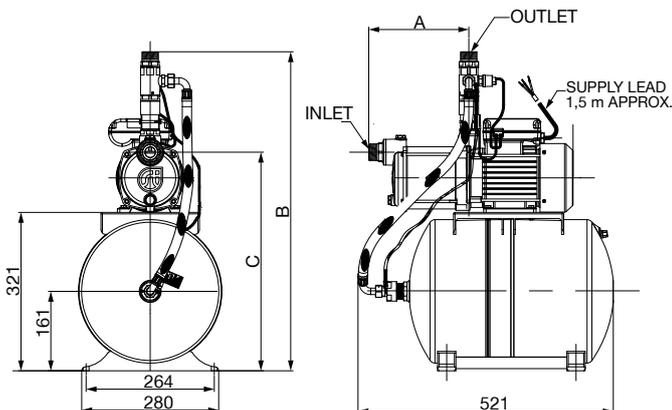

Application

- In the home Aquaboost Pressure Sets are typically used to boost cold water supplies to Combination Boiler or Pressurised Un-vented stored hot water systems
- In light commercial applications they can be used to boost cold water supplies to laundries, kitchens, hotels & sports/leisure facilities
