PRODUCT INFORMATION

TankBoost will boost multiple outlets, across multiple floors, all at the same time, in a mains-fed system.

TankBoost is an all-in-one unit made up of a water storage tank and an integrated submersible pump. The stored cold water is boosted by an integral submersible pump to increase both pressure and flow across the property, delivering up to 3.0 bar and 80L/min.

Additional water storage units are available to increase capacity.

PRODUCT FEATURES:

- Increase water flow up to 80L/min
- Boosts pressure up to 3.0 bar
- Stainless steel submersible pump
- Additional stored water tanks available
- Category 5 variants available
- 2 year warranty
